

## Château de sable

We witnessed a swan call  
and built a sandcastle  
one, two swift kicks  
a castle made of sand  
the cygnets clustered close to the parents  
and the sandcastle was destroyed  
before the incoming tide washed it away  
at this time of year the grey cygnets couldn't fly  
and we thought this is how a parent might feel  
being on the look-out and feed as the tide floods or recedes
